

360° Rotating Head

TECHNICAL FEATURES:

- 1.Imported with diversion nozzle, striking effect and waterline distance increased by 30%
- 2.Integrated design for all types of tank cleaning
- 3.Easy to solve the common tank cleaning difficult to reach the dead angle
- 4.Compared with the ordinary nozzle cleaning, it has obvious advantages
- 5.Applicable industries: chemicals, food, medicine, storage tanks, tank trucks, etc.

Model	Working pressure	Working Flow	Rotation Speed (rpm)	Weight	Material	Hole Qt'y	Thread
200AU	250bar	20~200L/M	10~30	4KG	SS316	4	M22*1.5 (24°)

TECHNICAL FEATURES:

- 1.Integrated design for all types of tank cleaning
- 2.Pressure from 150bar to 1500bar
- 3.The nozzle assembly is interchangeable and provides a wide range of flow combinations
- 4.Easy to solve the common tank cleaning difficult to reach the dead angle
- 5.Applicable industries: chemicals, food, medicine, storage tanks, tank trucks, etc.

Model	Working pressure	Working Flow	Rotation Speed (rpm)	Weight	Material	Hole Qt'y	Thread
